

Session-14

1. Largest Number:

```
class Solution {  
    public String largestNumber(int[] nums) {  
        String[] strs = new String[nums.length];  
        for (int i = 0; i < nums.length; i++) {  
            strs[i] = String.valueOf(nums[i]);  
        }  
  
        Arrays.sort(strs, (a, b) -> (b + a).compareTo(a + b));  
  
        if (strs[0].equals("0")) {  
            return "0";  
        }  
  
        StringBuilder sb = new StringBuilder();  
        for (String s : strs) {  
            sb.append(s);  
        }  
  
        return sb.toString();  
    }  
}
```

Output:
